

Application Form A for Gangbuk, Korea

Column 1	Column 2
Questions to be answered by the community	Questions to be answered by the certifiers
Section A Community Overview	
<p>A.1 Briefly describe the community and its historical Development</p> <p>According to the mortality rate by injury of Statistics Korea in 2008, the mortality rate of Gangbuk-gu (53.5%) is lower than the national mortality rate (61.7%) compared to other areas but higher than that of Seoul (45.5%).</p> <p>In addition, the use of medical institutions and the number of death caused by injury have been on the rise, causing tremendous socioeconomic costs. Consequently, injury has become one of the important problems which must be tackled for the life improvement of Gangbuk residents.</p> <p>To minimize injury and reduce the cost caused by injury by adopting the injury prevention program, establishing related policies, and making a correct definition of safety in the local community, we have planned for the international safe community accreditation. (See P.1 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>A.2 Describe the strategy, ambitions, objectives and work in the community in regard to safety. It must be a higher level of safety than average for a community in the country or region.</p> <ul style="list-style-type: none"> ▪ Vision <ul style="list-style-type: none"> - Hopeful Gangbuk where the safety of its residents comes first ▪ Purpose <ul style="list-style-type: none"> - Strengthen the sense of safety through voluntary participations of the local community and Secure safe life and healthy environment for Gangbuk residents by strengthening the residents' safety capability and reducing the injury rate ▪ Direction <ul style="list-style-type: none"> - Establish facility and the cooperation base for all levels of society in the 	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

<p>jurisdiction</p> <ul style="list-style-type: none"> - Strengthen the safety consciousness and capability - Establish Gangbuk-gu injury surveillance system - Improve injury –risk environment and reduce the injury rate of high-risk age groups - Accreditation of Gangbuk-gu as an international safe community - Sustainable program and working as the success model of safe community project <p>(See P.2 of the Report for details.)</p>	
<p>A.3 How are the mayor (or similar function of the community) and the executive committee involved? Who is chairing the cross-sector group?</p> <ul style="list-style-type: none"> ▪ Gangbuk-gu Safe Community Committee <ul style="list-style-type: none"> ○ 18 members including the chair of the committee (the Gu head) - The chair of Gu, senior officials and committee members - Safety related organizations and the heads of organizations - Injury prevention and safety experts ▪ Gangbuk-gu Safe Community Working Committee <ul style="list-style-type: none"> ○ 10 members including the chair of the committee (the head of the health center) - The head of the health center - Safety related organizations and working level officials <p>(See P.7 of the Report for details.)</p>	<p>Are the descriptions sufficient? Is the mayor involved? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no</p> <p>Is the executive committee involved? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no</p> <p>Who is chairing the crosssectional group? Mayor of Gangbuk</p>
<p>A.4 Describe the injury risk-panorama in the community.</p> <ul style="list-style-type: none"> ▪ The progress of injured-death index per year <ul style="list-style-type: none"> - With Seoul and Gangbuk-gu of the city, the share of injury death among the deaths nationwide shows the increasing tendency. In particular, Gangbuk-gu showed a higher figure than the average of Seoul in 2008. Gangbuk-gu recorded the same figure of the injury death rate among the death nationwide. However, it rapidly plummeted in 2010, lower than Seoul. ▪ The status of injured death index per year <ul style="list-style-type: none"> - The injury death rate continuously increased from 45.0, 2006 to 59.1, 2009. - By age, the rate dramatically soared in the age of 19~44 and over 65 and the suicide death rate of the senior skyrocketed from 44.1 to 80.0 - From 2010, the injury death rate drastically decreased to 55.7 by the population of 100,000 and by age, people at the age of 19~44 and over 65 showed big decreases. Based on these, we can assume that we have secured fundamentals of the safe community project and achieved the decrease of the injury rate through the project. Furthermore, the suicide death rate of the senior greatly decreased from 2010 and we were able to save priceless lives thanks to the ceaseless efforts and interests to prevent suicide. 	<p>Is the risk-panorama sufficiently described? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

(Unit: a person per the population of 100,000)

Index		2006	2007	2008	2009	2010
Injured death rate		45.0	50.1	56.1	59.1	55.7
Injured death rate by sex	Male	64.6	59.4	76.5	75.1	82.5
	Female	25.6	40.9	36.0	43.2	29.2
Injured death rate by age	0~6	14.1	5.0	15.8	10.9	0.0
	7~12	4.2	8.8	0.0	4.9	5.3
	13~15	0.0	0.0	0.0	16.5	0.0
	16~18	8.8	16.9	0.0	23.5	38.6
	19~44	29.2	32.0	41.7	50.3	36.3
	45~64	64.1	63.1	67.9	62.9	72.9
	65~	148.2	176.2	175.2	157.7	148.8

[Table 1] The status of injured death index per year
(Statistics Korea, the analysis of death causes, 2006-2010)

(See P.11 of the Report for details.)

Section B Structure of the community

B.1 Describe the demographic structure of the community

The population of Gangbuk-gu is 339,272 and it decreased 13% compared to 389,835 of 2011. The number of male population is 167,742, a little higher than 171,530 of the female population. We can see the elderly takes up 18.6% which is significant.

[Figure 1] The current status of population by age
(See P.15 of the Report for details.)

Is the demographic structure and the different risks sufficient described?

yes

no If no! What is missing:

<p>B.2 Describe the SC/IP at present and the plans for the future.</p> <p>For more details about the project, please refer to Appendix 1. Indicator 2.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>				
<p>B.3 Describe the support for sustained injury prevention of the local politicians in the community and which parts of the program have been undertaken and/or supported by the regional government?</p> <ul style="list-style-type: none"> ▪ Secure the political support of the policy maker (the Gu head, etc) <table border="1" data-bbox="162 560 992 846"> <tr> <td data-bbox="162 560 344 788">The Gu head</td> <td data-bbox="344 560 992 788"> <ul style="list-style-type: none"> ○ Held a public hearing, 'Gangbuk-gu safety community construction' : 2009.02.25 ○ Enacted regulations for safety community : 2009.05.15 ○ Established Gangbuk-gu safe community committee: 2009.06.15 </td> </tr> <tr> <td data-bbox="162 788 344 846">Gu assembly</td> <td data-bbox="344 788 992 846"> <ul style="list-style-type: none"> ○ Deliberation of the regulations: April, 2009 </td> </tr> </table> <p>[Table 2] The current status of the political supports from the local community</p> <ul style="list-style-type: none"> ▪ The elevation of the head of safe community committee <ul style="list-style-type: none"> - Revision of the regulations of the Seoul Gangbuk-gu safe community committee (promulgated in 2011.07.29) - The head of the committee was elevated from the vice head to the Gu head - Added the director of community management department as a member of the committee - The manager of the committee was promoted to the head of the public health department based on the reorganization (2009.10.01) ▪ Established a specialized team for safe community project <ul style="list-style-type: none"> - The Gu head set the project policy and the operation plan was established: 2008. 11(Safe community project team) - The team structure was built: Health safe community team(Public health department, reorganization in January 2010) <p>(See P.17 of the Report for details.)</p>	The Gu head	<ul style="list-style-type: none"> ○ Held a public hearing, 'Gangbuk-gu safety community construction' : 2009.02.25 ○ Enacted regulations for safety community : 2009.05.15 ○ Established Gangbuk-gu safe community committee: 2009.06.15 	Gu assembly	<ul style="list-style-type: none"> ○ Deliberation of the regulations: April, 2009 	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
The Gu head	<ul style="list-style-type: none"> ○ Held a public hearing, 'Gangbuk-gu safety community construction' : 2009.02.25 ○ Enacted regulations for safety community : 2009.05.15 ○ Established Gangbuk-gu safe community committee: 2009.06.15 				
Gu assembly	<ul style="list-style-type: none"> ○ Deliberation of the regulations: April, 2009 				
<p>B.4 Describe the strategic program concerning the safety promotion and injury prevention work, which has been formulated!</p> <ul style="list-style-type: none"> ▪ Children·Teenagers (Below 19) <ul style="list-style-type: none"> ○ Traffic accident <ul style="list-style-type: none"> - Improvement project of school zone - Operate CCTVs at school zones and primary schools - Campaign and safety education to decrease the number of traffic accidents ○ Collision/stab wound/amputation/bite <ul style="list-style-type: none"> - Operate health experience center - Health musical, life safety puppet show - Operate infant injury record system - Support Gangbuk Dadungi insurance - Operate school safety keeper and school safety council 	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>				

<ul style="list-style-type: none"> - Safety management of children facility ▪ Adults (20~64 years old) <ul style="list-style-type: none"> ○ Suicide accidents - Mental health center mental health improvement project - Visiting mental health counseling - Sort out post-natal depression patients and depression prevention education - Highly risky group screening project <ul style="list-style-type: none"> ○ Traffic accidents - Test for drunk driving and crack down - Traffic safety campaign - Maintenance and repair of traffic safety facilities ▪ The elderly (Over 65 years old) <ul style="list-style-type: none"> ○ Suicide accidents - Mental health center - domiciliary care working official meeting - Senior citizen center elderly depression prevention education - Mental health education for senior care givers ○ Falling accidents <ul style="list-style-type: none"> - Home and senior citizen center improvement project - Cane rental project for highly risky group of falling accident - Nutrition management for weak seniors - visiting rehabilitation project - Falling prevention class - Lecture for healthy life <p>(See P.19 of the Report for details.)</p>	
<p>B.5 Who is responsible for the management of the SP/IP program and where are they based in the local political and administrative organization?</p> <p>1 Deputy Director and 2 directors of Public Hygiene Division Health Community Team , Gangbuk-gu public health center (See P.21 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.6 Which is the lead unit for the SP/IP program?</p> <p>Health Community Team , Gangbuk-gu public health center (See P.22 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.7 Is the Safe Communities initiative a sustained program or a project?</p> <p>Yes (See P.101 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.8 Are the objectives decided by the local politicians covering the whole community? Which are they?</p> <p>Yes (See P.101 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

<p>B.9 Who have adopted these objectives?</p> <p>Yes (See P.101 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.10 How are the Safe Community objectives evaluated and to whom are the results reported?</p> <p>we will distribute the structure, process/output, and result evaluation to each person in charge based on the evaluation and report system of the safety community so that we can improve the system for a person in charge to produce digitalized output. Based on the effort, we will avoid repeating similar projects through feedbacks among persons in charge and will do the best to make effective programs.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.11 Are economic incentives in order to increase safety used? If yes, how are they used?</p> <p>We have enacted an ordinance of Gangbuk-gu safety community construction to secure legal and institutional fundamentals for the safety community project. (See P.24 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>B.12 Are there local regulations for improved safety? If so, describe them</p> <p>We have enacted an ordinance of Gangbuk-gu safety community construction to secure legal and institutional fundamentals for the safety community project.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

Section C Indicator 1

<p>1.1 Describe the cross-sector group responsible for managing, coordinating, and planning of the SP/IP program.</p>  <p>(See P.27 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
---	---

<p>1.2 Describe how the local government and the health sector are collaborating in the SC/IP work.</p>  <p>(See P.29 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>1.3 How are NGOs: Red Cross, retirement organizations, sports organizations, parent and school organizations involved in the SC/IP work?</p> <p>We consists of administrative as well as various organizations.</p> <ul style="list-style-type: none"> ▪ Life safety governance - Disaster prevention department ▪ Gangbuk public order council – Gangbuk Police station ▪ Nurturing project of safety leader per area – Gangbuk fire station ▪ Operate school safety keeper – Seongbuk Education Office ▪ The operation of school safety council – Gangbuk-gu Office <p>(See P.30 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>1.4 Are there any systems for ordinary citizens to inform about risk environments and risk situations they have found in the community?</p> <ul style="list-style-type: none"> ▪ Receive various accidents caused by disasters, judge the type and size of accidents, and report them ▪ Notify to related organizations and seek methods to respond ▪ Secure the information related to disasters, summarize and report the current situation ▪ Gangbuk-gu WISS, infant injury record system, the senior injury surveillance system ▪ The utilization of location banner for multi purposes <p>(See P.38 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>1.5 Describe how the work is organized in a sustainable manner.</p> <p>Continuous project operation following the procedure is a must. In case of Gangbuk-gu, we are expanding the safe community project with the long-term plan of utilizing the strategy: first, launch trial projects on levels with high injury risk of the society and expand the projects next year through</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

revising and improving
(See P.39 of the Report for details.)

Section D Indicator 2

2.1 Describe the sustainable work in regard to SC/IP in following areas and how the different sectors including specific NGOs are involved in the work.

1. Safe traffic
2. Safe homes and leisure times
3. Safe children
4. Safe elderly
5. Safe work
6. Violence prevention
7. Suicide prevention
8. Disaster preparedness and response
9. Safe public places
10. Safe hospitals
11. Safe sports
12. Safe water
13. Safe schools

Area	The Contents of the projects	Organizer
Traffic Safety	Campaigns to reduce traffic accidents and safety education	Gangbuk Police Station Guard Traffic Department
	Crack down on violated vehicles to prevent traffic accidents	Gangbuk Police Station Guard Traffic Department Gangbuk-gu Office Traffic Control Department
	Project to improve traffic facilities	Gangbuk Police Station Guard Traffic Department Gangbuk-gu Office Traffic Administration Department
Household and Leisure Safety	Supply basic fire-fighting facilities	Gangbuk Fire Station Prevention Department
	Promote fire fight safety and education, Establish a town without conflagrations	Gangbuk Fire Station Fire Administration Department
	Measures for electricity and gas safety management	Gangbuk-gu Office Local Community Economy Department
	Rescue and first aid education	Gangbuk-gu Community Health Center Medicine Department
Child Safety	Operate health experience center for children, health musical concert	Gangbuk-gu Community Health Center Health Improvement Department

Are the descriptions sufficient?

✓ yes

✗ no If no! What is missing:

	Improve school zones	Gangbuk-gu Office Traffic Administration Department	
	Hold puppet shows for children safety	Gangbuk-gu Community Health Center Public Health and Sanitation Department	
	Support Gangbuk 'Dadungi' insurance	Gangbuk-gu Office Women & Family Department	
	Children disorder prevention education	Gangbuk-gu Office Local Public Health Department	
	Children facility safety management	Gangbuk-gu Office Green City Department	
Senior Safety	Repair and maintenance of senior citizen centers, improve living environment	Gangbuk-gu Office Elderly Welfare Department Gangbuk-gu Community Health Center Public Health Department	
	Safety cane rental service for the senior citizen who have high-risk of falling	Gangbuk-gu Community Health Center Public Health Department	
	Falling prevention class		
	Senior citizen with malnutrition /remedial exercise project	Gangbuk-gu Community Health Center Local Public Health Department	
	Domiciliary senior health Lecture		
	Senior citizen center keeper, lecture for healthy life		
	[Table 3] Safe community projects by areas (See P.101 of the Report for details.)		
<p>2.2 Describe the work with genders, all ages and all environments and situations. Describe all activities like falls prevention and how the work is done.</p> <p>Gangbuk-gu is implementing the program covering all genders and all ages and environments. The program is explained in the report. (See P.43 of the Report for details.)</p>			<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
Section E Indicator 3			
<p>3.1 Identify all high risk groups and describe what is being done to increase their safety. Groups at risk are often:</p> <ol style="list-style-type: none"> 1. Indigenous people 2. Low-income groups 3. Minority groups within the community, including workplaces 4. Those at risk for intentional injuries, including victims of crime and self-harm 5. Abused women, men and children 6. People with mental illness, developmental delays or other 			<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

disabilities

7. People participating in unsafe sports and recreation settings

8. Homeless

9. People at risk for injuries from natural disasters

10. People living or working near high- risk environments

(for example, a particular road or intersection, a water hazard etc.

11. People at risk due to religion, ethnicity or sexual preferences

Section	Project Contents	Organizer
Low-income class	Volunteer group for underprivileged households' safety	Gangbuk Fire Station Correspondence Management Department
	Safety check and refurbishment projects for vulnerable social group to disasters	Gangbuk-gu Office Disaster Prevention Department
Minorities in the local society	Dust prevention	Gangbuk-gu Office Environment Department
Intentional injury including victims of crime and self-injury	Children and Teenagers Mental Health Keeper Activity	Gangbuk-gu Mental Health Center
Abused female, male, children	Education to prevent sexual harassment at work place and check up	Ministry of Employment and Labor Northern Office Workplace Improvement Guidance Department no. 2
	Operate female information center	Gangbuk-gu Office Women only families Department
Disorders such as mental disorder , development dalay, etc	Repair assisting devices for the disabled	Gangbuk-gu Office Livelihood Support Department
	Establish non-disorder street	Gangbuk-gu Office Road Management Department
Dangerous sports, recreations	Through management of swimming pools during the summer	Gangbuk-gu Office Culture and Sports Department
Homeless	Alcohol Addiction Prevention Project targeting at homeless people	Gangbuk-gu Alcohol Addict Counseling Center
People injured by natural disasters	Measures to support household which suffer from the flood	Gangbuk-gu Office Disaster Prevention Department
	Storm and flood damage insurance	

[Table 4] Safe community project according to areas and high-risk groups

<p>3.2 Give examples of high risk environments</p> <p>1. Describe how risk environments in the community are identified</p> <p>2. Describe prioritized groups and/or environments</p> <p>3. Are there specific programs for their safety in the community</p> <p>4. Describe the timetable of the work</p> <p>5. Are these groups involved in the prevention aspect of these programs?</p> <p>Yes. The high risk group was selected as the top priority through the priority selection process. We launched intensive programs targeting at the high risk groups which were selected from the risk factor analysis and needs of the residents. Therefore, we will continuously decrease injury by deal with the high risk groups in the perspective of prevention. (See P.46 of the Report for details.)</p>	<p>Are the descriptions sufficient?</p> <p><input checked="" type="checkbox"/> yes</p> <p><input type="checkbox"/> no If no! What is missing:</p>
--	---

Section F Indicator 4

<p>4.1 Describe the evidence-based strategies/programs that have been implemented for different age- groups and environments.</p> <p>We launched programs based on all available grounds according to evidence-based interventions from WHO. Considering the characteristic of Gangbuk-gu as the condensed area of the senior population and the results of "The basic research of safe community project in Gangbuk-gu in 2009," we selected the senior and children as the injury high risk groups, suggested scientific grounds to set the direction of the project by finding out the injury risk factors among them, and tried to set the long-term program strategy. (See P.69 of the Report for details.)</p>	<p>Are the descriptions sufficient?</p> <p><input checked="" type="checkbox"/> yes</p> <p><input type="checkbox"/> no If no! What is missing:</p>
---	---

<p>4.2 Has any contacts been established with ASCSCs , WHO CCCSP, other scientific institutions, or knowledgeable organizations about the development and/or implementation of evidence-based strategies? Which ones? What has been the extent of their counsel? Notice! WHO links to evidence- based interventions are found at the end of form B!</p> <ul style="list-style-type: none"> ▪ Conclude MOU with Affiliate Safe Community Support Center - The head of Gangbuk-gu Office (The head of the public center) · The head of Affiliate Safe Community Support Center, Ajou university - Performer : Affiliate Safe Community Support Center , Ajou university <p>(See P.71 of the Report for details.)</p>	<p>Are the descriptions sufficient?</p> <p><input checked="" type="checkbox"/> yes</p> <p><input type="checkbox"/> no If no! What is missing:</p>
--	---

Section G Indicator 5

<p>5.1 What local data is used to determine the injury prevention strategies? For example, registering injuries can be done at hospitals, health centers, dentists, schools, care of the elderly organizations and the local police. Household surveys can also be used for collection of data about injuries and risk environments and risk situations. Which methods are used in the community?</p> <ul style="list-style-type: none"> ▪ Data on Cause of death from Statistics Korea ▪ Data on Rescues of Fire Station ▪ Traffic Accident Data from Police Station ▪ Bills by School Safety and Insurance Association ▪ Senior Citizen Injury Status Research ▪ Infant and Toddler Injury Records in Nursery Facilities <p>(See P.73 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>5.2 Describe how data are presented in order to promote safety and prevent injuries in the community.</p>  <p>[Figure 2] The Injury and High Risk Group Surveillance System of Gangbuk-gu (See P.74 of the Report for details.)</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>5.3 Describe how the community documents and uses knowledge about causes of injuries, groups at risk and risky environments. How does the community document progress over time?</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

<ul style="list-style-type: none"> ▪ Infant and Toddler Injury Recording System <ul style="list-style-type: none"> - By establishing an infant and toddler injury recording system at the public health center homepage, those in charge of the nursery facilities log in with an allocated ID to each center and then, input the injury record on the infant and toddler injury status of two weeks in the nursery facilities. ▪ The Senior Citizen Injury Surveillance System <ul style="list-style-type: none"> - To complement information on the situation of the moment of injury occurrence of the administrative data sources of Gangbuk-gu Injury Surveillance System, Gangbuk-gu established the Senior Citizen Injury Surveillance System autonomously. To do so, linking to tailored visiting healthcare service for weak senior citizens, by researching injury status through public health center visiting senior citizens, sending researchers to 96 senior citizen centers in the jurisdiction to conduct a survey by filling out the injury status research form, and using these, by inputting the information into the web-based senior injury surveillance system and making it into data, it is possible to search the result in real time. (See P.78 of the Report for details.) 	
---	--

Section H Indicator 6

<p>6.1 How does your community analyze results from the injury data to track trends and results from the programs? What is working well and has given you good results. What are the plans to continue? What needs to be changed?</p>  <p>[Figure 3] Evaluation of safe community programs and report system</p> <p>Based on the evaluation of safe community programs and report system, we will improve the system so that rated evaluation together with carrying out projects can be possible through the distribution of the evaluation of the structure, process/rating, and results to each person in charge. Based on this, we intended to create effective programs and avoid overlapped projects through feedbacks between people in charge. (See P.81 of the Report for details.)</p> <ul style="list-style-type: none"> ▪ The plan to continuously decrease injury <ul style="list-style-type: none"> - Understand the current situation of safe community project: Recognize the 	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
--	---

<p>problems and set the goals through understanding the results of the previous year and similar projects</p> <ul style="list-style-type: none"> - The execution of safe community project and monitoring: execute projects with the suitable strategy, contents, item, and targets according to the goals <p>Establish the surveillance system which provides continuous monitoring inside and outside and plan the review period of evaluations</p> <ul style="list-style-type: none"> - The evaluation of safe community project: Measure the effects of safe community project and decide to continue, expand, or downsize in the following year by reflecting improvement items <ul style="list-style-type: none"> ▪ Areas for improvement - Solve the problems of the project by changing or creating project parent stations and facilitate voluntary resident participations in safety leader <p>(See P.81 of the Report for details.)</p>	
<p>6.2 Describe how the results from the program evaluations are Used.</p> <p>We use the results as the basic data for the result evaluation of safe community project after 2012 and utilize the results for core projects selection and execution. In addition, the results can be utilized to come up with improvements through selecting vulnerable safe community projects which need supports.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>
<p>6.3 Describe the changes in pattern of injuries, attitudes, behavior and knowledge of the risks for injuries as a result of the programs.</p> <p>Below is the analysis of the using rate of first aid services and injury-caused death rate during 2006-2008, before the project, and during 2009 to 2011, after the project.</p> <p>According to the analysis of the administrative data, the senior injury death rate and falling death rate decreased 166.5 to 153.3 and 32 to 11.7 per the population of 100,000, separately. The safety project focusing on the senior injury and falling were positively effective.</p> <p>After the safe community project, the death rate of children decreased 16 to 10.6 per the population of 100,000. In 2010, the number of injury-caused deaths among children recorded 0 that we must try to sustain this level.</p> <p>However, despite the continuous project, the death rate of the entire Gangbuk-gu and the rate of senior suicide and traffic accident injury soared. Reflecting on this, we need to expand the safe community project and need more fundamental plans to deal with problems such as the senior suicide.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! What is missing:</p>

[Figure 4] The current injury status before and after Gangbuk-gu safe community project (The analysis of data of Statistics Korea per the population of 100,000)
 (See P.87 of the Report for details.)

Section I Indicator 7

7.1 Describe how the community has joined in and collaborates in national and international safe community networks.

- We had a time to contemplate safe community programs by attending International symposiums, injury associations, International Conference on Safe Communities and local workshops of safe communities to share information and facilitate the network with participating local governments.
- We attended health city.safe community circulating workshop by Seoul city to have safe community theory and regulation education. Thanks to that, we were able to set the project direction and through discussions, we could facilitate the information sharing between local governments.
- In addition, we are currently promoting the safe community project of Gangbuk-gu by placing advertisements on the regular safe community news letter. We regard this opportunity to share the current situations of safe community projects home and abroad and benchmark other communities.

Are the descriptions sufficient?
 yes
 no If no! What is missing:

7.2 Will the designation ceremony coincide with any international conference, seminar or other forms of international or national exchange?

We will secure the time to listen to the achievements, development directions, and cases of other cities with accreditation through international safe community symposiums in Korea and we will try to mediate the schedules of other safe community and international symposiums in other areas

Are the descriptions sufficient?
 yes
 no If no! What is missing:

<p>7.3 Which already designated Safe Communities will be invited for the designation ceremony?</p> <p>We are planning to invite the relating officials from Seoul Songpagu, Cheonan-si, Wonju-si, Suwon-si, Jeju-si, and Seoul Gangdong-gu and facilitate the participation of the head of the international safe community cooperation center, the head of the accreditation center, investigators, and local governments home and abroad by promoting the accreditation of Gangbuk-gu.</p>	<p>Are the descriptions sufficient? <input checked="" type="checkbox"/> yes <input type="checkbox"/> no If no! [Table 5] Participation of National and International Safe Community Conferences

7.5 In which Regional Network for Safe Communities is the community a member or planning to seek membership? (Asian, European, Pan-Pacific, African or Latin-American Regional Network for Safe Communities)

We belong to Asia safe community network (Aju University, WHO Collaborating Center on Community Safety Promotion)
 Through the accreditation of safe community, Gangbuk-gu is exerting its utmost best to become an international safe community beyond Asia.
